

Easter Time- Get Cracking!

Create some unique and original eggs.

Try out your ideas on rough paper first and make sure to boil and cool eggs before painting and keep in fridge. Lots of other ways you can make your eggs rather than using real eggs. Cut out shapes and create garlands, wreaths or you can find some egg-shaped stones. Make a nest from some decorative feathers or some twigs and pop your eggs into the nest. You can look up real birds' eggs and paint your eggs in the same colours.
